## MESSAGE FROM THE TRAINING DIRECTOR

As internship training director, it is my pleasure to introduce to you the Casa Pacifica Doctoral Internship program for the 2022-23 training year. Casa Pacifica's mission includes the intensive treatment of abused, neglected and at-risk youth. As part of this mission, the agency has a particular interest in training psychologists to help lead the health care industry in promoting healthy outcomes for children and strengthening families. Interns are valued and respected members of treatment teams and work in specific tracks of residential treatment. The youth we serve come to us from the foster care, probation, adoptions and special education systems as well as from private placements by parents.

The campus treatment programs at Casa Pacifica serve the most vulnerable youth and families at their most vulnerable times. As you have accessed this brochure, I am assuming you have interest in this work and training setting. To attain professional competency, interns are trained in trauma treatment, individual and group therapy, assessment, DBT, diversity, attachment and the neurobiological impact of trauma on the developing brain. Increasingly, social justice is integrated into all aspects of our work. We serve youth with the saddest of stories who are frequently from marginalized and oppressed groups. While trauma has often been severe for our youth, healing and growth can be significant and dramatic. The training year here is an intense one, not only in the emotional and behavioral regulation issues we treat, but also in the pace of instruction, the responsibilities and leadership roles interns take on, and the potential for vicarious trauma for all who work here. We are looking for interns with the energy, enthusiasm and commitment to grow, who are willing to be vulnerable and give of themselves while trusting the training to prepare them for competency as a psychologist. The training team makes a commitment to interns to guide and nurture on the path towards professional competency and to help process the impact of this work on the developing clinician. If all this sounds like a call to action rather than a warning to close your browser, we welcome your application to join us here at Casa Pacifica!

This brochure does provide an overview of training that will help you assess our match for your professional interests, but do not hesitate to contact me for further information.

Thank you and best of luck to you as you take the next steps in your professional journey.

Robert Kretz, Psy.D.  
Training Director, Doctoral Internship  
Casa Pacifica Centers for Children & Families

## INTRODUCTION

The Casa Pacifica Doctoral Internship Program offers a comprehensive training experience in Clinical Child and Adolescent Psychology, with a focus on treating complex trauma and disruptive behaviors in at-risk youth, ages 8 through 18 years. The Casa Pacifica Doctoral Internship is accredited by the Commission on Accreditation of the American Psychological Association (APA) and is a member of the Association of Psychology Postdoctoral and Internship Centers (APPIC No. 1516). The internship program offers positions at the campus-based programs. Tracks include (1) Short Term Residential Therapeutic Program (STRTP) and (2) Non-Public School (NPS). The STRTP track currently has two internship positions, and the NPS will offer one internship position. Applicants can apply to multiple tracks and must identify which track or tracks they are interested in on their applications, using the following labels and APPIC Number: (1) STRTP 151611; (2) NPS 151612.

The yearlong, full-time Doctoral Internship in health services psychology will begin on Monday August 1, 2022 and end on July 28<sup>th</sup>, 2023. Modifications to training have been necessary due to the Covid-19 crisis and these will continue to evolve as future health directives mandate. However, given that Casa Pacifica provides essential services in residential treatment settings, interns will be providing direct client services with appropriate safety protocols. **The application deadline for the 2022-23 class is Thursday November 18, 2021, 11:59 pm PCT.**

*\* This internship site agrees to abide by the APPIC policy that no person at this training facility will solicit, accept or use any ranking-related information from any intern applicant.*

## OUR BACKGROUND

Casa Pacifica, located on a 23-acre campus in Camarillo, California, was established in 1988 and opened its doors in 1994 to meet Ventura County's need for: (a) *shelter care* for abused, neglected, and abandoned children and adolescents removed from their homes by Child Protective Services (CPS) under the provisions of the Welfare and Institutions code, Section 300. In 2017, this program became part of our STRTP services and no longer exists; and (b) *residential treatment* for seriously emotionally disturbed children for whom appropriate placements in Ventura County did not exist. In addition to these core services, Casa Pacifica offers Non-public school to children who live on or off campus as well as assessments, educational programs, family support, medical services, psychiatric/psychological treatment, and a variety of community-based interventions to children and their families.

Unique to Casa Pacifica is the partnership between the private, non-profit entity and the County of Ventura as represented by our Partner County agencies: *Human Services Agency, Ventura County Behavioral Health, Juvenile Justice and our local school districts*. This partnership implements a “system of care” philosophy dedicated to the proposition that children with multiple problems require multi-agency solutions. Consequently, the partnership seeks to integrate Casa Pacifica into the community’s system of care including all the existing local public and private service providers for children and families. Casa Pacifica does not operate in isolation, but with partners in the community as part of a network and continuum of services available to high-risk children and families. Casa Pacifica works hard to adapt to the changing needs of the youth we serve and the communities with which we partner.

### **Intern Positions within Campus Based Services**

**T**he Short Term Residential Therapeutic Program (STRTP) provides an intensive, highly structured 24-hour out-of-home program for 42 girls, 9-17 years of age, and operates around the clock. Certified as an RCL-14 facility, the RTC serves only those children who are assessed as being seriously emotionally disturbed and require this intensive level of services. A resident’s typical length of stay ranges from 6-12 months.

**I**ntern Track (APPIC 151611) in Short Term Residential Therapeutic Program (STRTP): Interns in this track are assigned to one of our three adolescent STRTP cottages, all serving girls ages 9 to 17. The STRTP track offers long-term therapy experience with youth and their families as well as psycho-educational and evidenced based group experience. This track offers experiences working with a clinically acute population and will require a commitment to working with complex trauma, explosive anger and disruptive behavior. Previous clinical or work experience in a similar setting is strongly preferred as training in the Residential Treatment Center is an intense and often stressful experience. Weekly schedule is Monday through Friday.

**I**ntern Track (APPIC 151612) in the Non-Public School (NPS): One internship position is planned for the NPS. The NPS, accredited by the Western Association of Schools & Colleges (WASC) and the State Department of Education, is designed to provide educational services to seriously emotionally disturbed children who cannot educationally benefit from public school programs and require a more intensive level of educational services. The Casa Pacifica School serves children from the RTC as well as day students from surrounding communities, grades three through 12. The intern in this track will work with children and/or adolescents who attend the non-public school at Casa Pacifica and then return to their families or care providers in the evening. These students typically attend a minimum of 1 year at our non-public school providing the intern with long-term treatment experiences. Interns are integrated with the IEP team serving their youth and provide individual, group and family therapy. Weekly schedule is Monday through Friday.

# DOCTORAL INTERNSHIP PROGRAM PHILOSOPHY

## DOCTORAL INTERNSHIP PROGRAM MISSION STATEMENT

*To develop ethical, competent child and adolescent psychologists trained in the Local Clinical Scientist Model, who respect diversity and contribute to their communities and the field of clinical psychology.*

## THEORETICAL ORIENTATION

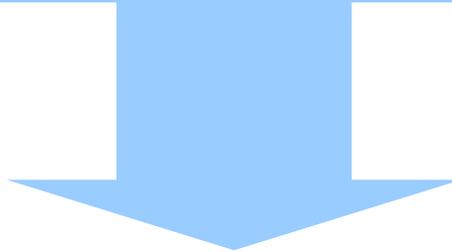

Casa Pacifica's approach to treatment is relational and attachment driven, and treatment utilizes evidenced based interventions in working with our youth. As such, all clinicians are well versed in attachment theory, the effects of trauma on the developing brain, evidenced -based treatment interventions and other orientations they have personally integrated into their practice. With any given case, we may conceptualize or integrate into treatment plans aspects of other theories (e.g., psychodynamic, humanistic, family systems therapy, etc.), but are always grounded in the literature on the effects of abuse, neglect and disrupted attachment on the development of the mind and the self. We are committed to assessing the needs of every child on an individual basis and then establishing a treatment plan with specific goals. These goals will change as the child grows and achieves. As part of the assessment process, we have an appreciation for the child's developmental stage (both psychologically and chronologically), diversity, and the complex history most of our youth bring with them. In addition, we believe it is often essential to act as a child's advocate in terms of working with parents, teachers, social workers, probation officers, attorneys, etc.

## TRAINING MODEL AND UNDERLYING VALUES

The Casa Pacifica Doctoral Internship program offers sequential and graded clinical training in treating complex trauma, crisis management, brief and long-term psychotherapy, group therapy, assessment and consultation, as well as several evidenced based practices.

Our staff and agency value our training program and make training activities a high priority. Our intrinsic goal is the development of ethical, competent child and adolescent psychologists trained in the Local Clinical Scientist model (a variant of the Scientist-Practitioner model), who respect human diversity and contribute to their communities and the field of psychology. Our educational focus is preparation in the applied practice of clinical psychology as defined by the APA Professional Wide Competencies and based on the body of scientific knowledge and scientific principles of our profession. Our primary mode of training is “learning by doing.” Consequently, we provide an array of training seminars, training supervisors, and training experiences with a practical, experiential approach. To the extent possible, we use the naturally occurring events within our program as opportunities for training. We are also committed to assisting interns in identifying, testing, and refining “best practices” in psychology with respect to empirically supported approaches. Weighing the interpersonal, familial, cultural, regional, economic and social influences that impact a person’s life helps us promote a “localized perspective.” This process facilitates a match between “best practices” and the specific needs of the individual. Through this process, our Internship Program transitions the intern from student to professional.

**OUR DOCTORAL INTERNSHIP PROGRAM ENSURES THAT INTERNS CAN ACQUIRE AND DEMONSTRATE SUBSTANTIAL UNDERSTANDING AND COMPETENCY OF THE PROFESSION WIDE COMPETENCIES THROUGH THE FOLLOWING PROGRAM DEFINED ELEMENTS**

### **RESEARCH:**

- Engage in systematic effort to increase knowledge of psychology through implementing and reviewing research and advances in the field
- Understand methods appropriate to research questions, setting and/or community
- Independently critically evaluate and disseminate research or other scholarly activities at the local, regional and national level and integrate science and clinical judgment with practice and evaluate the effectiveness of interventions.
- Evaluate treatment progress and modifying treatment plans

### ***ETHICAL AND LEGAL STANDARDS***

- Demonstrate knowledge of and adherence to APA ethical Principles, Code of Conduct, and other professional standards along with relevant laws, regulations, rules and policies governing health service psychology at the local, state and federal levels
- Compliance to all policies and procedures of the agency and training program
- Acceptance of responsibility for all aspects of their client's mental health care
- Acts to benefit the welfare of others, especially those in need.

### ***INDIVIDUAL AND CULTURAL DIVERSITY***

- Embrace the role of individual and cultural diversity differences in treatment planning, intervention and conclusion
- Inquire about, explore, and acknowledge individual and cultural differences in therapeutic and cultural differences of their clients.
- Use of individual diversity factors in treatment planning and meetings.
- Ability to redirect individual and cultural insensitivity in the milieu
- Ability to provide feedback to clients and family with a keen awareness and sensitivity to diversity factors
- Lead treatment team meetings with partner agencies
- Awareness of self-world view and potential implications for doing therapy

### ***PROFESSIONAL VALUES, ATTITUDES AND BEHAVIORS***

- Independently monitor and apply knowledge of self and others to inform practice as a cultural being in assessment, treatment and consultation
- Manage and be aware of transference and countertransference.
- Consistently anticipate identify and address personal problem, minimizing effects on competent professional functioning and seeks supervision
- Maintain appropriate professional and ethical boundaries with clients and colleagues
- Model self-care and monitor issues related to self-care
- Elicit feedback directly from clients, family members of clients, staff and other professionals to
- Evaluate communication skills

### ***COMMUNICATION AND INTERPERSONAL SKILLS***

- Facilitation of communication amongst team members
- Non-defensive Listening
- Advocacy for clients
- Acknowledging one's own role in difficult interactions and seeking supervision
- Presenting suggestions, views and decisions to colleagues in a concise and confident manner.
- Conduct self in a professional manner across settings and situation
- Regular follow up with communication between team members
- Adjust use of language to fit audience when imparting psychological formulations to help team members understand drivers of a youth's symptoms and behaviors

## ***ASSESSMENT***

- Independently select and implement multiple methods to evaluate and assess children and adolescents
- Use best available empirical literature to select and apply assessment methods and instruments for use with children and adolescents
- Administering scoring and interpreting assessment instruments
- Integration of test data and completion of comprehensive assessment reports
- Fluency in linking test results into real world recommendations and treatment interventions
- Intake assessment and Interviewing

## ***INTERVENTION***

- Accurately assess and conceptualize independently client needs considering larger life context including diversity issues
- Independently select an intervention or range of interventions appropriate for client presenting issues.
- Provide therapy services including individual, group, and family therapy, and crisis intervention
- Intervention, treatment planning, case management and documentation of services
- Proficiency in theories of child and adolescent psychology and working with emotionally dysregulated and traumatized youth.

## ***SUPERVISION***

- Providing feedback to peers regarding peers' clinical work in context of group supervision or case conference
- Openness and responsiveness to supervision, appropriate self-disclosure, engagement in the self-reflective process
- Effective incorporation of feedback from supervision into clinical practice
- Continually monitor and independently resolve situations that challenge professional values and integrity.
- Reflection and knowledge of the role of diversity in the supervision relationship
- Consult with supervisor about case material and professional development.
- Demonstrate understanding of complexity of supervisors' role in ethical, legal and contextual issues.
- Knowledge of procedures and practices of supervision including preparation of agency and state board of psychology required paperwork for supervision agreement

## **CONSULTATION AND INTERPROFESSIONAL/INTERDISCIPLINARY SKILLS**

- Recognize when to consult a licensed supervisor on legal and ethical issues
- Systematically initiate collaboration successfully with other relevant partners
- Take initiative to consult with other disciplines in the service of the client
- Awareness of role of diversity in consultation
- Serve in a leadership role on multi-disciplinary interagency teams

- Demonstrate skills in interdisciplinary clinical settings in working with other professionals to incorporate psychological information into overall team planning and implementation
- Understand and appreciate the role of psychologists in impacting larger systems as a leader and manager

## SUPERVISION

Minimum supervision includes:

- Individual Supervision with Primary Supervisor, *1 hour a week*
- Individual Supervision with Secondary Supervisor, *1 hour a week*
- Group Supervision with Delegated Supervisor, *2 hours a week*
- Individual Supervision with Post-Doctoral Fellow, *30-60 minutes a week as assigned*
- Assessment Supervision, *1 hour a week or as needed*

## WEEKLY SPECIAL TOPICS SEMINAR

Seminars offer training in a broad range of areas including, theory, diagnosis, evaluation and intervention.

- |   |  |
|---|--|
| ■ Cognitive and Emotional Testing                           | ■ ADHD, ODD, and Conduct Disorder                        |
| ■ Intake Interviewing and Preliminary Diagnostic Assessment | ■ Neuro-biological impact of trauma on brain development |
| ■ Crisis Management   | ■ Licensure Preparation                                  |
| ■ Child and Adolescent Psychotherapy                        | ■ Professional Development                               |
| ■ Family Therapy  | ■ Diversity Training                                     |
| ■ Law and Ethics  | ■ Life Space Crisis Intervention (L.S.C.I.)              |
| ■ Consultation  | ■ Termination of the Therapeutic Relationship            |
| ■ Psychopharmacology  | ■ Substance Abuse  |
| ■ Trauma  |  |
| ■ Mood and Anxiety Disorders                                |  |

## ASSESSMENT OPPORTUNITIES

One component of doctoral and postdoctoral training involves integrative psychological assessment of youth ages 5-17 with a wide range of presenting problems. Students develop their assessment skills through a yearlong assessment seminar and by completing both screening and comprehensive psychological assessments at Casa Pacifica. An emphasis is on gaining fluency in linking data to real world recommendations. Cognitive measures include: WISC-V; WAIS-IV; Woodcock Johnson Tests of Achievement and Cognitive Abilities; California Verbal Learning Test; Rey Complex Figure; Delis Kaplan Executive Function System; TOVA; NEPSY-II; TAPS-IV; TVPS-IV. Emotional measures include: Rorschach, Millon Inventories, MMPI-A, Draw a House-Tree-Person; Sentence Completion; Roberts Apperception Test.

## SPEAKERS/TRAINING OPPORTUNITIES

Casa Pacifica is committed to the ongoing training of interns and staff. Leading researchers and professionals within the field of psychology are invited to speak and/or train on their areas of expertise. Recent speakers have included Carol Falender, Ph.D. (Supervision), Pam Harmell, Ph.D., (Law and Ethics), Paul Baker, Ph. D (Neuro-relational Trauma Model).

## YOUR FUTURE

Casa Pacifica is dedicated to meeting the training and professional development needs of our interns. Supervisors act as mentors to help interns prepare and market themselves for future professional employment. A goal of the training that interns will leave our program with a strong professional identity and be confident and competent to work with children and adolescents who have severe emotional problems. Many interns have gone on to leadership positions within Casa Pacifica and to other similar agencies around the country.

## LIVING IN CAMARILLO & VENTURA COUNTY

Located in Ventura County, Camarillo is the fifth largest city in the county with about 67,000 residents, rolling hills, strawberry fields galore, a thriving business community, and more

affordable housing. Camarillo is in a wonderful setting on the Pacific coastal plain and is only 5 miles from the Pacific Ocean.

Residents enjoy a mild year-round

climate and outdoor activities all year.

Camarillo's location halfway between Santa

Barbara and Los Angeles puts visitors and residents close to a multitude of wonderful places, attractions and activities.

Within Ventura County are cities such as Oxnard, Ojai and Ventura along the California coastline which offer non-crowded beaches, popular surf spots, harbor cruises, a 13-mile bikeway, festive shops, restaurants, family entertainment, and the Channel Islands National Park Visitors Center. Additionally, the city of Ventura has a vibrant art district, weekly Farmer's Markets, artisans and stage

performances, an archaeological museum, city walking tours, and the Annual 'Music Under the Stars' concert.

For those who like warm weather, recreation, cultural diversity, and a growing, changing community, our area has great appeal.

# INTERNSHIP ADMISSIONS, SUPPORT AND INITIAL PLACEMENT DATA

## Internship Program Admissions

The Casa Pacifica Doctoral Internship utilizes the uniform online application process developed by the Association of Psychology Postdoctoral and Internship Centers (APPIC). The Application is called APPIC Application for Psychology Internships (AAPI). Matching, acceptance, and notification are subject to APPIC guidelines. Information regarding the internship and Casa Pacifica in general can be accessed at [www.casapacifica.org](http://www.casapacifica.org) or the APPIC website [www.appic.org](http://www.appic.org). Any additional questions can be answered by contacting Casa Pacifica's Clinical Director of Training, Dr. Robert Kretz at [rkretz@casapacifica.org](mailto:rkretz@casapacifica.org).

Applications to the Casa Pacifica Doctoral Internship Training Program in Health Services Psychology must be received by **11:59 p.m. PCT, November 18, 2021**. Please note there are three different training tracks at our campus. Candidates must specify what track or tracks for which they wish to be considered. For Residential treatment center, type **STRTP** and for Non-public school, type **NPS** in your application and letter of interest. After screening of applications, approximately 36 intern applicants will be invited to interview in December and January. Present plans are to have interviews conducted virtually with a possible opportunity for interviewees to visit campus outside of the interview process. Further information will be provided as conditions may change or require modifications. Interviews will be offered only to applicants who have submitted a complete application file and only after these files have been screened by Selection Committee. Again, applicants who wish to be considered for interviews must submit application materials prior to **11:59 pm (PCT) November 18<sup>th</sup>, 2021**.

## Internship Program Admissions Requirements

In addition to the APA Benchmarks (2007) for Internship readiness the intern selection committee utilizes the following to assess in intern selection:

1. Enrollment in a psychology doctoral program accredited by the American Psychological Association.
2. Three letters of recommendation from supervisors, training directors, and educational institution which speak to the professional and ethical standards of the student as well as the applicant's strengths and needs for future growth.
3. Verification of Readiness for Internship from the internship applicant's school
4. APPIC application to evaluate writing abilities, communication style, and assessment experience.

5. Interview results
6. Previous practicum experience totaling a minimum of 500 intervention hours and 100 assessment hours. Practicum experience working with children and particularly with adolescents is preferable. Inpatient, residential or juvenile justice practicum experience with children and adolescents is preferred if the applicant wishes to be considered for one of the residential placements.
7. Experience in crisis intervention with adolescents.
8. Experience with evidenced based practices
9. Experience working with a diverse group of clients
10. Proficiency in administration, scoring and interpretation of basic psychological tests; Minimum of 4-6 integrated reports.
11. Official transcripts of all graduate work
12. Current academic vita

Does the program require that applicants have received a minimum number of hours of the following at time of application? The following are preferred hour minimums.	
Total Direct Contact Intervention Hours	500 hours
Total Direct Contact Assessment Hours/Integrated Reports Integrated Reports	100hrs/4-6

**The application should be submitted online as part of the uniform online application process, called (AAPI) accessible at [www.appic.org](http://www.appic.org)**

In addition to completing the online application (AAPI) please upload and submit the following:

1. **Verification of Internship Eligibility and Readiness**, completed by the applicant's academic program.
2. A current **curriculum vitae**
3. **Transcripts** of all graduate level coursework.
4. **Three (3) letters of recommendation** from current graduate school faculty and clinical supervisors (these may arrive after the deadline dates).

Upon acceptance to the program, all positions are contingent upon applicants satisfying the following eligibility requirements: Successful completion of a background check and completion of a TB skin test screening. It is recommended but not required that incoming interns carry

their own professional liability insurance. Typically, the intern's graduate school provides this coverage. Proof of coverage is required prior to seeing clients in our training program. For further information, check the APA website on-line at [www.apa.org](http://www.apa.org). For additional program information please refer to the APPIC program directory at: <https://membership.appic.org/directory/display/489>

The training program requires a minimum completion of 1920 hours over 12 months based on 40 to 44 hours per week. Note that most interns acquire over 2000 hours. The Board of Psychology in California allow interns to accrue a maximum of 44 hours of supervised professional experience (SPE) per week. Successful completion of the internships will include active participation in all didactic training, weekly supervision and clinical rounds, achievement of competency benchmarks, successful completion of individualized training plan, adherence to all aspects of the Internship Job Description, and Satisfactory ratings on evaluations. Interns fulfilling program requirements are awarded a certificate of completion at the conclusion of the training year.

Casa Pacifica is identified by the state of California as providing essential health services at our residential facilities. As such, direct residential and clinical services continue to be provided by our staff throughout the Covid-19 pandemic. Guidelines for treatment will be updated as such are communicated by state and local health officials and the CDC. Incoming interns will likely begin their training year with approximately two weeks of in person trainings and would provide in-person clinical services to the youth in their training tracks. Current interns provide in person individual therapy and assessment services which involve the wearing of masks and eye shields, appropriate number of participants and ventilation in indoor spaces, sanitizing of materials and outdoor meetings. Casa Pacifica will continue to modify and change safety protocols as circumstances may change over time. Such changes will be communicated to incoming interns as such as made.

### ***Financial and Other Benefit Support for the Upcoming Training Year***

Casa Pacifica provides financial and other support for interns to help off-set routine expenditures associated with a full-time internship. Interns are eligible for Casa Pacifica's health insurance plans on the first of the month following 60 days of internship. Interns are paid on an hourly rate of \$15.00 for a 40-hour work week, equating to \$31,000 annually if 40 hours a week are worked for 52 weeks. The agency recognizes that time-off is important for personal and family business and for physical and emotional renewal. Time off facilitates greater success in the training program. Personal Time Off (PTO) accumulates at a rate of 4.92 hours for every 80 hours worked, plus time off on nine Casa Pacifica Holidays. PTO can be used for sick time, vacation or defending your dissertation. We ask that interns not take vacation during the first 90

days or last 30 days of the internship. In compliance with the Health Workplaces, Healthy Families Act (AB1522), 24 hours of your PTO will be designated as sick time on your start date with accrual of further PTO to begin after 90 days of employment.

Annual Salary for Full-time Interns: \$31,000 annually; \$15.00 an hour, 40 hours a week, 52 weeks

Total Direct Contact Intervention Hours	Program provides access to medical insurance for intern?	Yes
If access to medical insurance is provided:		
Trainee contribution to cost required?		Yes
Coverage of family member(s) available?		Yes
Coverage of legally married partner available?		Yes
Coverage of domestic partner available?		Yes
Hours of annual paid Personal Time Off (PTO and/or vacations) * 24 hours are dedicated to paid sick leave.		4.92 hrs. per 80 hrs. worked.
Casa Pacifica Paid Holidays		9 days
In the event of medical conditions and/or family needs that require extended leave, does the program allow reasonable unpaid leave to interns in excess of personal time off and sick leave?		Yes

Casa Pacifica provides office space for interns to use for clinical services and each intern will have his/her own desk, computer and phone. Rooms with 2-way mirrors, video cameras and DVD equipment are available for interns to use to facilitate the supervision process.

**Initial Post-Internship Positions**

Aggregated total of past 3 cohorts; each individual counted one time
